HOLIDAY HOUSE | ACTIVITY SHEET

CREATE BLOCK PRINT DESIGNS OF YOUR OWN!

Materials needed:

- Styrofoam tray
- scissors
- pencil with a dull point
- paint
- paper
- roller to spread the paint

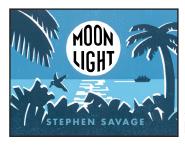

Directions

- 1. Use scissors to trim the edges off the Styrofoam tray so that you are left with a flat rectangle.
- 2. Use the pencil with a dull point to draw the design you want.
- 3. Trace over all the lines of your drawing a second time, pushing on your pencil to create a groove in the Styrofoam.
- 4. Spread a light coat of paint evenly over the Styrofoam surface with a roller. Be careful not to use too much paint because you do not want it to accumulate in the grooves.
- 5. Turn the foam over on a piece of paper.
- 6. Press down all over the foam.
